

Homologation Engineer at IGNITE by FORVIA HELLA w/m/d

All remote, global

Join the Future of Software – with IGNITE by FORVIA HELLA 

We are looking for tech visionaries who want to rethink **software development**.

Are you ready to shape the next generation of mobility?

Do you have a passion for technology and a desire to work on groundbreaking projects?

Then IGNITE by FORVIA HELLA is the place for you!

We are an agile team that develops and distributes software solutions. Our core competence lies in the development of software products that are directly integrated into vehicle systems or that are usable in the development environment of industrial sectors. But we go even further: with the latest technologies such as machine learning and cloud computing, we take our software products to the next level, creating solutions that go beyond traditional approaches. Sounds exciting? Keep reading!

What you can look forward to ...

→ Entrepreneurial Thinking: we are looking for people who think outside the box and act like entrepreneurs. With us, you have the freedom to contribute ideas and actively shape projects.

→ Passion for the Work: there is no boredom here – we love what we do and thrive in a dynamic work environment where you can fully express your passion for embedded software and advanced technologies, while having fun with it!

→ State-of-the-Art Technologies: all our projects revolve around software, and modern approaches like artificial intelligence, machine learning, and cloud technologies also play a big role. You will have the chance to experiment in various fields and actively shape the future of vehicle and industrial technology.

→ Flexibility: shape your workday with your global team, fully remote.

What is expected for the role ...

- Plan and execute certification paths (e.g., UNECE/ISO) and evidence packages to enable market entry for the Traffic Rules Engine product.
- Lead vehicle validation/commissioning of law packs: plan/track/execute datalog tests, analyze results, and sign off releases.
- Interface with OEMs, test institutes (e.g., TÜV, DEKRA, etc.), and authorities; resolve findings and document compliance.

Homologation Engineer

at IGNITE by FORVIA HELLA w/m/d

All remote, global

- Ensure end-to-end traceability (requirement → test → audit artifact) and maintain auditable change control.
- Learn IGNITE tech stack and contribute to practical test tooling and KPI dashboards.
- Fluent English (verbal and written communication).

Required Qualifications

- 5+ years in homologation / type approval at an OEM, Tier-1, or testing institute.
- Hands-on ADAS/AD commissioning & validation experience (public road & proving ground).
- Working knowledge of UNECE frameworks, ISO 26262, ISO 21448; familiarity with automotive industry standards where relevant.
- Ability to run and interpret test logs/datalog results; basic scripting (Python).
- Clear communicator with regulators.

Preferred Skills

- Prior responsibility for automotive homologation & market launches across multiple regions.
- Experience with CAN, data logging, test automation, and report generation.
- OEM/Tier-1 partner management, concessions handling, and audit preparation.
- Additional languages; willingness to travel for pilots and audits.
- Exposure to simulation tools (e.g., CarMaker, CARLA) is a plus

Can't identify with this role? No problem, convince us of your skills and personality, and get in touch.
